Client [Coach Road Pub](#)

Sector Residential

Location Aherlow, Co. Tipperary

Description This development involves the conversion of a pub into a residential home. This project was completed by wrapping the building with external insulation and installing new Rationel windows throughout the building. This building was over 200 years old and has been brought up to a current building energy regulation standard. Due to the level of airtightness and insulation we were able to install a heat pump as a main source of renewable energy. Also, part of this project was to upgrade existing sheds into a self-contained 1 bed room cottage.

Client [Galbally National School](#)

Sector Education

Location Galbally Co. Limerick

Description The development involves the construction of an extension to provide one additional classroom for children with special needs [autistic spectrum]. It also has a sensory room, quiet room, office, kitchen, several bathrooms and a safe covered play area which includes an astro turf section and a build in ground level trampoline. This was a government funded project.

Client **Private Client**

Sector **Residential**

Location **Galbally Co. Limerick**

Description The development involves the construction of a new 2700sq house and a garage 1500sq feet. This house was designed and built to a very high standard. A lot of effort went into the finer details. It has an open plan area which shows kitchen/living room, 4 bedrooms, 2 bathroom and a large utility with laundry and pantry. It also has a large entrance hall with a curved cut string staircase.

Client [Deerpark Nursing home](#)

Sector Healthcare

Location Lattin, Co. Tipperary

Description The development involves the construction of an extension to provide 7 additional single ensuite rooms, new offices, new kitchen, dining room, treatment room, laundry and store rooms. The projects also included a new carpark, new green area to include astrotuf. A new treatment plant was also included in this project. This building was upgraded to meet Hiqua standards.
